Message From The Founder

At GorMa, we believe that “Taste Strengthens Connections.” This philosophy has guided us since our founding in 2022, inspiring us to create premium, innovative and thoughtfully curated snacks that enhance both personal and professional moments.

Our journey began with a focus on crafting unique and high-quality snacks, initially gaining recognition through curated gift boxes for festive occasions. As we grew, we realized the power of thoughtful snacking in shaping memorable experiences. This understanding led us to explore new avenues where premium snacks could add value—one of which was the hospitality industry.

During our interactions with customers and businesses, we noticed that while minibars are a staple in luxury hotels, the snack options often lacked innovation,

authenticity and premium appeal. We saw this as an opportunity to bring our expertise into the minibar segment, offering high-quality, carefully curated snacks that enhance the guest experience.

authenticity and premium appeal. We saw this as an opportunity to bring our expertise into the minibar segment,

offering high-quality, carefully curated snacks that enhance the guest experience.

Today, GorMa is proud to redefine minibar snacking, helping hotels elevate their guest offerings while strengthening their brand identity. With a commitment to quality, innovation and authenticity, we continue to create snacks that not only satisfy cravings but also enhance experiences—one bite at a time.

“ We craft premium, innovative snacks that elevate experiences, blending taste with purpose to strengthen connections. ”
